

## ENVIRONMENTAL MANAGEMENT Policy Statement

Emeco acknowledges its responsibility to minimise impacts on the environment arising from its business activities. Emeco and its management are committed to achieving excellence in the environmental management of all Emeco's business activities.

Emeco will:

- As a minimum standard ensure it complies with all environmental laws and regulations.
- Implement environmental management systems and procedures which assist Emeco to discharge its legal obligations and enable it to monitor its environmental management performance.
- Integrate environmental management into all relevant facets of its business.
- Provide the financial, human and material resources necessary to achieve an excellent standard of environmental management.
- Strive to continually improve its environmental management and will periodically review its performance to identify areas for improvement.
- Ensure its employees and contractors are aware of the environmental commitment outlined in this Policy Statement and that they understand their responsibility to assist Emeco to fulfil its environmental commitment.
